Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claims 1-7 and 18-25 are presented for examination.

The amendments and remarks filed on March 5, 2005 have been received and entered.

Claims 1-7 and 18-25 are rejected under 35 U.S.C. 103 (a) as being unpatentable over Muller et al. (US 6,020,358) in view of Tobinick (US 6,428,787) and D'Amato (US 6,235,756) for the reasons set forth on pages 2-5 of the office action of November 13, 2008.

Applicant's arguments have been carefully considered, but are not deemed to be persuasive. Applicant's main arguments are drawn to the numerous compounds covered by the genus taught in the prior art, and there is no motivation for one skilled in the art to pick the claimed compound from the numerous compounds covered by the prior art. It is the examiner's position that all the compounds covered by the genus of the prior art is expected to have TNF alpha inhibitory activity based on sharing the same basic structure. Therefore, a person skilled in the art can pick any compound encompassed by the genus of the prior art and expect such compound to have TNF alpha inhibitory activity. The secondary reference clearly teaches compounds having TNF alpha activity are used for the treatment of macular degeneration. Therefore, it is expected that the claimed compound to be effective in treating macular degeneration. The only unobvious element remaining for applicant to demonstrate is to compare the claimed compound with the closest structurally similar TNF alpha inhibitor disclosed by the prior art and to show advantage in terms of treating macular degeneration. In the absence of such showing the prior rejection sustains.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ZOHREH A. FAY whose telephone number is (571)272-0573. The examiner can normally be reached on Monday to Friday 9:30-6:00.
